**Subject: Permit Tracking No. SOP - 09025
Watson Farms
Celina, Clay County, Tennessee**

Dear Mr. Watson:

Thank you for contacting me in regards to the renewal of your CAFO permit. As per our discussion you will be applying for a SOPCE (State Operating Permit – 100% Manure Export) and will no longer have a NPDES permit. The following items are necessary for application submittal:

1. Completed Notice of Intent form.
2. Completed Nutrient Management Plan.
3. Signed Declarations to Nutrient Management Form.
4. Manure sample analysis from within the past 12 months.
5. A color aerial map with all structures clearly labeled and a color topographic map with property boundary lines included.

I have enclosed a blank Notice of Intent (NOI) form, Nutrient Management Plan (NMP) worksheet and Declarations page for your convenience. The completed information can be returned via the address found on page 4 of the NMP, or scanned and emailed to my address below.

If you have any questions or concerns, please feel free to contact me at 615-837-5489 or sarah.hovis@tn.gov.

Sincerely,

Sarah Hovis
Environmental Specialist
